PROFESSIONAL SUMMARY

Backend-focused Full Stack Software Engineer with 2 years of experience building enterprise healthcare applications using Java 17, Spring Boot, React.js, and AWS. Designed and shipped 40+ REST APIs powering order, invoice, and payment workflows for a platform supporting 100+ practices, agencies, manufacturers, and administrators, processing 10,000+ orders and invoices. Experienced in secure authentication, cloud deployments (EC2, S3, Lambda, RDS), third-party integrations (Stripe, ERP, email/SMS), and unit testing with JUnit/Mockito.

CORE TECHNICAL SKILLS

Languages & Backend: Java 17, Spring Boot, Spring Security, JWT, JPA/Hibernate, REST APIs

Frontend: React.js, TypeScript, JavaScript, Redux Toolkit, HTML5, CSS3

Cloud (AWS): EC2, S3, Lambda, RDS

Database: MySQL, SQL

Testing & Quality: JUnit, Mockito, Postman, SonarQube

DevOps & SCM: Git, GitHub, SVN, Jenkins, CI/CD, Maven

Architecture: Microservices, WebSocket, Asynchronous Processing, Distributed Job Locking

Integrations: Stripe, ERP Systems, Email/SMS APIs, Webhooks, Apache PDFBox, Apache POI

PROFESSIONAL EXPERIENCE

Techforce Infotech Pvt. Ltd.

Aug 2024 – Present

Software Developer (promoted from Associate Software Developer)

- Contribute to an enterprise healthcare order and patient management platform supporting 100+ practices, agencies, manufacturers, and administrators.
- Designed, developed, and maintained 40+ REST APIs using Java 17 and Spring Boot for order, invoice, payment, notification, and document workflows, handling 10,000+ orders and invoices.
- Built reusable React.js, TypeScript, and Redux Toolkit components, improving frontend maintainability and feature delivery speed.
- Implemented JWT-based authentication and role-based access control to secure healthcare workflows and protected patient data.
- Integrated Stripe payments, ERP systems, email/SMS providers, tracking services, and webhook-based communication systems.
- Resolved production-critical issues across Dev, Stage, and Production environments; improved code quality using SonarQube.
- Implemented asynchronous processing, schedulers, and distributed job locking; built real-time notifications using WebSocket architecture.
- Generated PDF and Excel documents for invoices and reports using Apache PDFBox and Apache POI.
- Deployed and maintained services across AWS (EC2, S3, Lambda, RDS) with CI/CD pipelines via Jenkins; supported migration from SVN to Git/GitHub.

Rays TechServ

Feb 2024 – May 2024

Software Developer Intern

- Contributed to frontend and backend feature development, debugging, and defect resolution.
- Collaborated within Agile teams using Git-based version control workflows and SDLC best practices.

SELECTED PROJECTS

Enterprise Healthcare Order Management Platform

- Built order processing, dynamic pricing, invoicing, commission handling, secure patient data workflows, and audit logging.

Lab Automation Tool

- Developed REST API integrations, a MySQL persistence layer, and an Angular 17 frontend with PrimeNG components for laboratory operations.

First Flight Travels

- Implemented authentication and booking management functionality for a travel platform.

EDUCATION

Bachelor of Engineering – Computer Engineering

Vishwakarma Government Engineering College, Ahmedabad (Gujarat Technological University) | 2020 – 2024

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Recipient of the Team Motivator Award for collaboration, ownership, and delivery excellence.
- Currently preparing for AWS Certified Developer – Associate certification. Languages: English, Hindi, Gujarati.
